LEGISLATIVE COUNSEL'S DIGEST

SB 18, as amended, Chesbro. Education finance.

(1) Existing law requires the State Board of Education to adopt standards and criteria to be used by local educational agencies in the development of annual budgets and the management of subsequent expenditures from that budget. Existing law requires those standards and criteria to include comparisons and reviews of reserves and fund balances.

This bill would, notwithstanding any law, authorize a local educational agency to count any amount of state funding deferred from the current fiscal year and appropriated from a subsequent fiscal year for payment of current year costs as a receivable in the current year. The bill would, notwithstanding any law and for the 2002–03 fiscal year

only, authorize a local educational agency to use for purposes determined by its governing body up to 50% of its reserves for economic uncertainties and up to 50% of the balances, as of July 1, 2002, of restricted accounts in its General Fund, excluding restricted reserves committed for capital outlay, bond funds, sinking funds, and federal funds. The bill would state the intent of the Legislature that local educational agencies use this flexibility for certain purposes and make every effort to maintain a prudent expenditure plan that ensures solvency for the 2002–03 fiscal year and in subsequent fiscal years.

(2) Existing law requires the Superintendent of Public Instruction to make the second principal apportionment on or before June 25th of each year.

This bill would instead require this apportionment to be made on or before July 2. The bill would make conforming and technical changes in this regard.

~~(3) Existing law establishes the California Mathematics Initiative for Teaching for the general purposes of increasing the number of teachers who are competent and certificated to teach mathematics.~~

~~This bill would repeal this program.~~

~~(4) Existing law requires a local governing board of a school district that receives funding pursuant to the Instructional Materials Funding Realignment Program to provide a pupil with standards-aligned instructional materials, as adopted by the State Board of Education, pursuant to a specified provision, subsequent to the adoption of content standards for kindergarten and grades 1 to 8, inclusive.~~

This bill would provide that for the 2002–03 and 2003–04 fiscal years only, that requirement may be satisfied if the governing board of a school district provides a pupil with standards-aligned instructional materials that were adopted by the State Board of Education pursuant to a repealed provision of the Education Code.

*(4) Existing law establishes the Governor’s Scholars Program under which a pupil may receive a scholarship for attaining a high score, as specified, on the reading and mathematics portions of the statewide achievement test. Existing law also establishes the Governor’s Distinguished Mathematics and Science Scholars Program under which a pupil may receive a scholarship for demonstrating specified high academic achievement in mathematics and science. The Scholarshare Investment Board administers both programs and is required to deposit the awards earned by pupils into a specified account within the Golden State Scholarshare Trust.*

*This bill would change the manner in which those awards would be required to be deposited into the account.*

(5) The Budget Act of 2001 appropriated \$2,124,000 to the State Department of Education for capital outlay for the California School for the Deaf.

This bill would revert those funds to the General Fund and, instead, would appropriate \$2,144,000 in the Budget Act of 2002 from the Public Buildings Construction Fund to the State Department of Education for capital outlay for that school.

(6) Existing law states the intent of the Legislature that education programs with voluntary participation be funded at statutorily authorized levels and requires the Controller, upon approval of the Director of Finance to transfer unobligated funds between specified voluntary participation programs to the extent needed to fully fund eligible participation and gives first priority for the allocation of savings to the CalSAFE program.

This bill would, notwithstanding the above, require the Controller, upon request of the Superintendent of Public Instruction and approval of the Director of Finance, to transfer unencumbered funds between any of specified remedial supplemental instruction programs for the purpose of ensuring that supplemental instruction and remedial programs are funded at statutorily authorized levels. By authorizing this transfer, the bill would make an appropriation.

(7) Existing law requires the State Allocation Board to apportion funds from the State School Deferred Maintenance Fund to school districts based on a local one-to-one match up to a maximum amount based in part on the district's total expenditures and certain ending fund balances, excluding amounts expended for capital outlay or debt service.

This bill would waive the local match requirement for the 2002–03 fiscal year.

(8) Existing law appropriates \$145,775,000 from the General Fund for transfer to the Instructional Materials Fund for one-time instructional materials grants to school districts.

This bill would require schools receiving these grants to give first priority to the purchase of standards-aligned English language arts reading materials for English learners and standards-aligned reading intervention materials for pupils in grades 4 to 8, inclusive.

(9) Existing law, the Budget Act of 2002, makes various appropriations for purposes of the public education.

This bill reverts specified appropriations made in that Budget Act to the General Fund, thereby reducing those appropriations.

(10) Existing law, including the Budget Acts of 2000 and 2001, makes various appropriations for purposes of the public education.

This bill would revert specified appropriations to the Proposition 98 Reversion Account in the General Fund.

(11) This bill would reappropriate ~~\$391,926,000~~ *\$491,926,000* from the Proposition 98 Reversion Account in the General Fund, \$356,810,000 of which would be for purposes of regional occupational centers and programs and ~~\$35,116,000~~ *\$135,116,000* of which would be for adult education. These funds would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

This bill would fund CalWORKs Stage 3 child care by reappropriating specified federal funds, appropriating other specified federal funds, and requiring the use of specified federal funds appropriated for another purpose.

(12) Existing law establishes the various segments of the public higher education system in the state. These segments include the University of California, which is administered by the Regents of the University of California, the California State University, which is administered by the Trustees of the California State University, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges.

The Budget Act of 2002 makes numerous appropriations for the support of the various components of the public higher education system in the state.

This bill would reduce a variety of higher education appropriations that were made in the Budget Act of 2002, and would revert the amounts of these reductions to the General Fund. The bill would also make various related mechanical and conforming changes, including the appropriation of funds for community college apportionments in the 2003–04 fiscal year to replace funds previously appropriated for the 2002–03 fiscal year that are reverted by this bill.

The

*This* bill would require that the appropriation be included in the amounts appropriated by the state in the 2003–04 fiscal year for purposes of meeting the state’s minimum funding obligation to school

districts and community college districts under Section 8 of Article XVI of the California Constitution for that fiscal year.

(13) This bill would appropriate \$370,263,000 from the General Fund to the State Department of Education for the 2003–04 fiscal year in accordance with a specified schedule. This appropriation would be applied toward the 2003–04 fiscal year minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(14) *Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges, and establishes community college districts that provide instruction at campuses throughout the state. Under existing law, community college districts receive part of their operating revenues from property tax receipts. The existing Partnership for Excellence Program is established under the administration of the Board of Governors of the California Community Colleges for the purpose of achieving annual performance goals and improving student learning and success. The Budget Act of 2002 appropriated \$300,000,000 from the General Fund for allocation by the board of governors for the Partnership for Excellence Program.*

*This bill would require the Director of Finance, in consultation with the Chancellor of the California Community Colleges, to determine, not later than May 15, 2003, the amount of the property tax shortfall, as defined, for the California Community Colleges for the 2002–03 fiscal year. If the amount of the property tax shortfall, as determined pursuant to the bill, is less than \$38,000,000, the bill would authorize the Director of Finance to reduce the amount appropriated for the Partnership for Excellence Program in the Budget Act of 2002 by an amount not to exceed the difference between \$38,000,000 and the amount of the property tax shortfall determined pursuant to the bill.*

(15) This bill would declare that it is to take effect immediately as an urgency statute.

Vote: <sup>2</sup>/<sub>3</sub>. Appropriation: yes. Fiscal committee: yes. State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. Section 14041.5 is added to the Education Code,

32 2002, of restricted accounts in its General Fund, excluding  
33 restricted reserves committed for capital outlay, bond funds,  
34 sinking funds, and federal funds, in order to provide local

36 the 2002–03 fiscal year that are enacted by the Legislature after  
37 January 2003.

38 (b) A local educational agency may not, pursuant to paragraph  
39 (a), use the combined budgetary reserves in excess of its total  
40 midyear budget reductions for the 2002–03 fiscal year.

(c) It is the intent of the Legislature that a local educational agency use the flexibility provided in subdivision (a) to the extent midyear budget reductions for the 2002–03 fiscal year occur in the following programs:

(1) Attaining a combined score on the reading and mathematics portions of the nationally normed achievement test adopted by the State Board of Education pursuant to Section 60642 that places him or her in the top 5 percent of test takers in his or her grade level statewide. A pupil attending any California public school, including those specified in subdivision (g) of Section 52052, is eligible to receive an award pursuant to this paragraph.

(2) Attaining a combined score on the nationally normed reading and mathematics portions of the achievement test adopted by the State Board of Education pursuant to Section 60642 that places him or her in the top 10 percent of test takers in his or her grade level in the comprehensive public high school attended by that pupil. When calculating the top 10 percent, the result shall be rounded to the nearest whole integer for the purpose of determining the number of awards in any high school. If this calculation results in a number of pupils less than one in any high school, there shall be one award at that school.

(c) Pupils earning an award pursuant to subdivision (b) may receive only one award in any given year. However, a pupil may earn a lifetime maximum of three awards by meeting the requirements of this section in each of grades 9, 10, and 11.

(d) Once the State Board of Education has determined that the English language arts and mathematics portions of the statewide pupil achievement test authorized by Section 60640 ~~have been~~ *are* aligned with the California academic content standards, and the standards aligned test is both valid and reliable for high stakes purposes, that test shall be used as the basis for the award of scholarships pursuant to subdivision (a).

(e) (1) For the purposes of this section, a “comprehensive high school” includes both of the following:

(A) The California Schools for the Deaf established pursuant to Chapter 1 (commencing with Section 59000) of Part 32.

(B) The California School for the Blind established pursuant to Chapter 2 (commencing with Section 59100) of Part 32.

(2) A pupil attending the California Schools for the Deaf or the California School for the Blind who met the criteria for an award pursuant to this section for tests taken in year 2000 shall receive an award for that year.

*(f) Notwithstanding any other law, commencing with the 2003–04 fiscal year, funding for Governor’s Scholar awards shall only be appropriated for qualifying recipients who are enrolled in the 12th grade, unless legislation enacted during the 2003-04 Regular Session specifies otherwise.*

SEC. 12. Section 69998 of the Education Code is amended to read:

69998. (a) The Governor’s Distinguished Mathematics and Science Scholars Program is hereby established.
